Assemble, paint and start playing :)

Toyicada aims for the long-term use of wooden toys for children of all ages.

The fact that they can assemble it on their own and paint it 3,4 times with water-based paints will improve children's sense of belonging and creativity. It is one of the toys that does not go out of fashion and has been used for many years.

In addition, it keeps the memories alive by using it as a decor in the rooms. It remains hygienic with its wipeable and washable feature, and can be shared among siblings and friends due to its robustness.

The fact that it can be used for generations makes the price paid reasonable...
